### **About CAMICB**

The Community Association Managers International Certification Board (CAMICB) is a 20-year old independent board that sets the standards for community association managers worldwide. CAMICB (formerly NBC-CAM) administers the Certified Manager of Community Associations® (CMCA) examination, a rigorous, three-hour test that measures managers' knowledge of community management best practices. Passing the CMCA examination and maintaining the standards of the CMCA certification is proof that a manager is knowledgeable, ethical and professional. CMCA-certified managers have the skills to safeguard the assets of homeowners' associations, giving homeowners peace of mind and protecting home values.

The CMCA credential is accredited by the National Commission for Certifying Agencies (NCCA) which means it complies with NCCA's stringent international standards for a professional certification program. NCCA accreditation provides independent validation that the CMCA program meets or exceeds twenty-one standards concerning various aspects of the certification program including its purpose, structure, governance, psychometric foundation, policies and procedures. Accreditation validates the integrity of the CMCA program and is a mark of quality. For more information, go to [www.camicb.org](http://www.camicb.org).
